

Ceado E37

Constantly fresh ground coffee is available with Ceado's new electronic coffee grinder, model E37. Last-generation electronics combined with the reliability and innovation of Ceado products has resulted in a product that keeps all the best qualities of the coffee intact. The standard features of precise grinding time settings (intervals of 1/10 second) and continual infinitesimal grinding adjustment using the "see & set" system plus low noise in operation make this a superior product for offering perfectly ground coffee at the simple push of a button.

The specially designed chute ensures effective constant dispensing of the correct amount. Independent buttons for double and single doses, multi-language display, housing in light aluminium alloy. Exclusive choice of methods of activation for maximum operating flexibility: by touch control or by continuous pressing of the filter holder on the switch. Unrivalled access to grinding mills makes maintenance easy. Electronic timer to control the dispensed dose. Exclusive design of the coffee delivery spout to guarantee the dispensing of a constant quantity. Fast and precise dispensing. Approx. 2 seconds for a single dose and less than 4 seconds for a double dose. Possibility of selecting the dispensing method: manual or electronic.

Technical Data - E37

- Grinding Blades Diameter: 64mm
- Bean Hopper Capacity: 1600g
- Blade Speed: 1400rpm
- Dimensions: 220 x 250 x 640mm
- Power Consumption: 400W
- Weight: 13Kg
